# Officeig Cloud Supported Biometric Attendance Device

## Key Features

### Dashboard Overview

Get live insights on total employees, those present and absentees – all in one dashboard.

### Real-Time Attendance Tracking

Instantly sync attendance data from multiple locations to the cloud.

### Reports

Daily, weekly, and monthly attendance reports are available in just one tap – export in Excel or PDF formats.

### Activity Logs

Get a complete audit trail of changes made to the device or user settings.

### Leave Management

Approve, reject, or manage employee leave requests with auto-sync to attendance reports.

### Geo-Fencing & Location Tracking

Restrict attendance punches to specific office locations via GPS.

### Face Recognition & Fingerprint Support

Advanced biometric authentication to prevent buddy punching.

### Mobile App Integration

Employees can view their attendance, apply for leave via the mobile app

### Multi-Device & Multi-Location Support

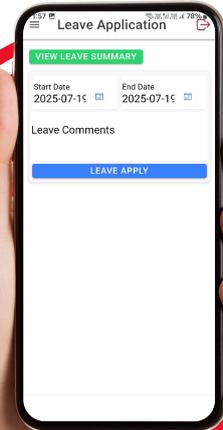

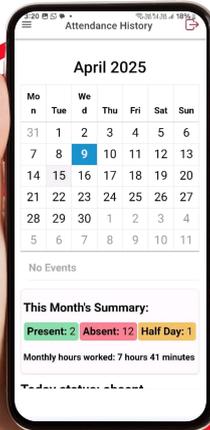

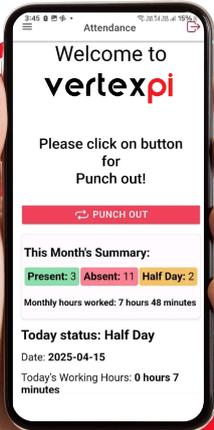

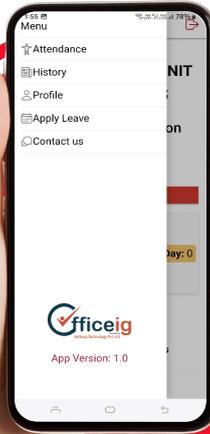

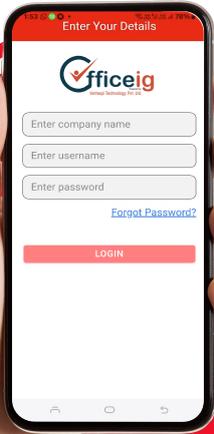

Use across branches or units with centralized control.

### User Access Control

Set role-based access rights for HR, Admin, or Managers.
